

~~RIGHT?~~

WRONG

When **RIGHT** becomes

WRONG

We want Shropshire to be a **SAFE** place for **EVERYONE** to live, a place where we all care about each other and stick up for people when they aren't being treated fairly by others.

Unfortunately not everyone feels the same way and there are groups that encourage a hatred of others because they are 'different'. Some groups go out of their way to manipulate people to their way of thinking, making people feel they are not alone in facing the threat these 'different' people apparently pose. Some groups go as far as to promote the use of violence and plan violence against others.

We want to STOP that happening in Shropshire.

This booklet will help you understand more about the difference between right-wing extremist groups and how to spot if people may be involved with them.

Cultural nationalism definition:

is a belief the 'Western Culture' is under threat from mass migration into Europe and the lack of integration by certain ethnic and cultural groups.

Other signs to look out for

When people are becoming involved in extremist groups, their behaviour can change. Here are some things to look out for that may be out of character.

Is someone close becoming a stranger?

Are they being influenced or controlled by a group?

**Are they always
blaming others?**

**Are they becoming
obsessive or angry wanting
“something to be done”?**

**Are they spending a lot of time
on-line, sharing extreme
views on-line, involved in
violent gaming?**

On-line platforms to look out for

It's important to note that people with extremist views can have a presence on any social media site. Not all of the following are used by extremists but they are worthy of noting if they are being used and there are other concerns.
